# Six advantages of Taiwan's medical services

Featured medical treatment: cardiovascular treatment, joint replacement, reproductive medicine, cancer treatment, Da Vinci surgery, craniofacial reconstruction, health check, aesthetic medicine, sightseeing treatment

## High quality

- ✔ The first country in Asia to establish an evaluation system
- ✔ A total of 18 hospitals have passed the evaluation of the JCI International Hospital in the United States

## Touching service

- ✔ Each hospital provides an independent health management center
- ✔ Medical VIP service (car airport transfer, language translation...)

## Reasonable price

- ✔ The cost of surgery in Taiwan is only 1/5 in the U.S. and 1/6 in the U.K.

## Specialist service

- ✔ Preventive medicine, health check, diagnosis, to disease treatment
- ✔ Medical network integrating traditional Chinese medicine and Western medicine

## High tech

- ✔ 43 positron photography equipment, 200 nuclear magnetic resonance instruments
- ✔ Introduced the first medical particle therapy equipment (2015)

## Professional team

- ✔ There are 29.28 physicians and 71.02 hospital beds per 10,000 people
- ✔ The highest five-year survival rate for living donor liver transplantation is 93.5%

# Health check

The quality of medical care in Taiwan has made many overseas Chinese feel at ease, and many overseas Chinese also take the opportunity to go back to Taiwan for a "health check."

## Full service, active follow-up and care

- According to the different results of each customer's health check, professional health managers take the initiative to follow up and provide follow-up medical services and suggestions to protect the health of each customer in all aspects
- The integrated professional team provides customized health check recommendations based on the health status and health check requirements of individual customers

## High-quality inspection environment professionals to serve you

- It has an independent health examination space and separate medical examinations. Spacious waiting area for health check, exclusive personal locker, massage chair, computer area, etc.
- The whole process of the health check is led and guided by professional health managers and nurses, so customers can rest assured to check

## Flagship inspection equipment, technological privacy and confidentiality

- Professional medical-grade laboratory has passed TAF certification and introduced the latest biochemical and immune integrated analysis equipment
- Have an RFID system, based on privacy protection, and let customers understand the inspection flow and process

## Backed by medical center grade hospitals

- Have a team of hospital specialists, full-time health managers and dietitians
- After the health checkup, a specialist will provide a report explanation, and refer to the medical examination or nutrition consultation depending on the condition, so that the service after the health checkup will be more complete

# Medical Trip- Aesthetic Medicine, Dental Treatment

## Taiwan Beauty Medical Trip
